

# SimpleMMO Book Publishing Guide-by [Galahad Creative Administration](#)

Books have been introduced to SimpleMMO to allow the community to create its own lore, share stories, poems, guides and any forms of creative writing.

Due to the nature of this feature, we aim to maintain a very strict quality control measure to ensure that all content remains at the highest possible standard.

For the sake of simplicity, the guidelines will be bullet-pointed below. Please ensure that you read through the guidelines thoroughly before you publish any content.

These guidelines are intended to supplement and not to replace or take precedence over the in-game rules and Terms of Service.

- Each book you publish will cost you 150,000,000 gold (at the time of writing). Once a book has been published, you cannot make any further changes to the book. It is set in stone.
- Books do not require approval for publishing. SimpleMMO staff reserve the rights to amend or remove any books if the content is deemed as inappropriate.
- Books must be related to SimpleMMO in some way.
- SimpleMMO's lore has been entirely left in the hands of the community. Because of this, in addition to what has been mentioned above, if we deem any lore either unnecessary, inappropriate or ill-fitting, then it will be removed. Essentially, use your head and don't create anything that is simply bizarre or doesn't fit within the confinements of SimpleMMO's theme.
- Unpublishing a book will not have its gold reimbursed. You will need to pay the fee again if you wish to re-publish it.
- Any player can purchase a version of your book in an item format for a set amount of diamonds. You are given a set amount of gold for each purchase of said item.
- A book can be removed completely from the game if a moderator removes it due to inappropriate content.
- Having multiple books removed by the SMMO staff team will result in your account unable to create further books.
- If you purchase a book as an item and it is removed by the moderation team, you will retain the item but have no further access to the book itself. Please buy books at your own risk.
- Books can only be written in English at this time due to moderation.

In essence, take your time and only publish a book once you are 100% sure that it is ready for the public to see. No amendments can be made once the book has been published, and if someone has purchased it as an item then it will remain forever in the game.
